

# AEROSHELL GREASE 64

## Synthetic Molybdenum Disulphide Grease XG-276

### BENEFITS AT A GLANCE

- **Longer component life** through exceptional load-carrying and extreme pressure properties from its formulation with 5% molybdenum disulphide, and excellent wear and corrosion protection.
- **Longer grease life** from excellent mechanical stability and controlled oil separation.
- **Reduced costs** through excellent protection and longer grease life.
- **Reduced product misapplication risk** through complete compatibility with AeroShell Grease 33.
- **Peace of mind** through the use of proven lithium compound thickener technology.
